25X1

Antiaircraft Defenses in Sofia

1. A new radar type SCR 584 has been installed at a position approximately 100 meters northeast of the Sofia - Plovdiv road, abreast of the 6 Kilometer milestone. A tent is located next to the radar installation. No guns were observed.

Antiaircraft Defense in Khaskovo

2. A radar position is located on a hill overlooking Khaskovo, approximately 50 meters from the road to Plovdiv. It is mounted on a truck and is of a type similar to the 13 M K 11. Tents and trucks surround the radar installation.
3. Between this radar position and Khaskovo, circular trenches are being excavated. They are undoubtedly for use as battery positions.
4. In the evening a searchlight beam was observed touching the top of the hill on which the radar installation is located and appeared to come from a point immediately east of the airfield.
